

Pan/Tilt (PT) Camera Control Systems

Our systems are designed with high quality and affordability

Connect unlimited PTs with up to 300ft CAT5 (or 2 miles fiber-optics) distances between network units.

Key Features

- Uses off-shelf standard tablets, routers, switches, etc.
- Supports multiple video control stations on same network
- Smooth starts/stops with soft landing
- LANC remote camera control interface (Sony and Canon)

- Download presets from other VM control stations on network
- Status indication of all PTs on network
- Supports all digital Video Robotics PT units
- Remote upgradeable software

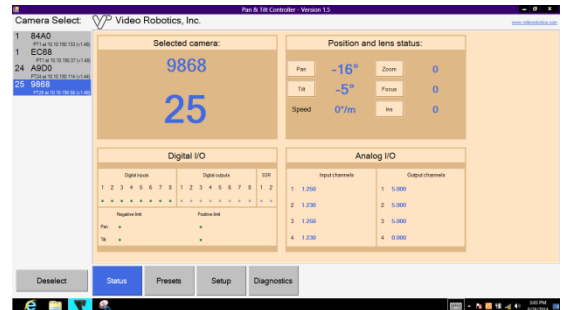

USB Video Management Controller

- 3 axes joystick for Pan, Tilt, Zoom control
- 27 programmable user-defined pushbuttons
- USB 1.1 HID compliant
- Easy to use and operate
- Functions determined by controlled application
- Lighted button display

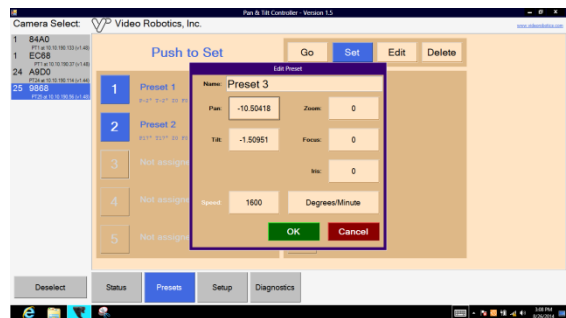

Software

- Multiple control locations (room, building, city, country)
- Intuitive touch-screen user interface control
- Virtually unlimited PT and programmable preset selections
- Supports RS485 or RS232 serial control
- Supports TCP/IP, 10/100M Ethernet
- Supports IrDA serial communication
- Supports USB communication
- Windows Tablet or PC

System Options & Accessories

- Fiber Optics (replace CAT5) for longer distances
- Expandable network of PTs
- Routers and Switches for expanding network
- Battery 12V 33Ah (for 12 hours uninterrupted use)
- Inverter 12V DC to 110VAC, 400W
- Directional Yagi antennas
- Project-specific custom system modifications
- Wireless (talk to your salesperson)
- Rigid no-vibration wall and ceiling brackets
