

# VIDEO ROBOTICS

## Custom Harness Cable Assembly

1349 West 166<sup>th</sup> Street, Gardena, CA 90247

AS9100 Rev D Registered

Video Robotics has carved a solid reputation with its customers and is proud to have been recognized as a top quality source for custom harness cable assemblies for over 15 years.

Video Robotics has maintained standards of excellence that have earned premiere program status, such as for Boeing's Chinook-47 landing gear harnesses.

### Why Video Robotics?

- Over 35 years engineering expertise
- Price competitive
- Specializing in difficult-to-automate harnesses
- Proven management staff
- Proven production quality systems
- Vast supply chain
- Spot Buys, LTAs, Blanket-orders
- Small-medium lot production quantities

### Harness Cable Assembly

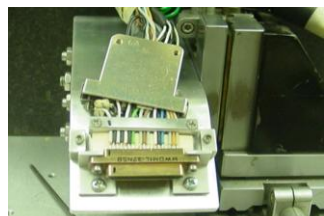

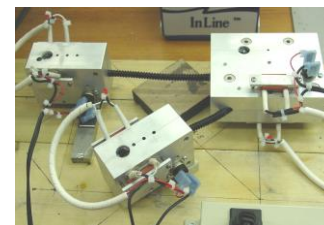

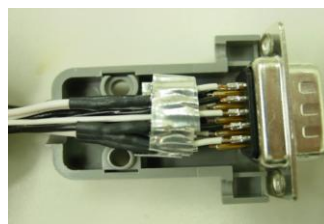

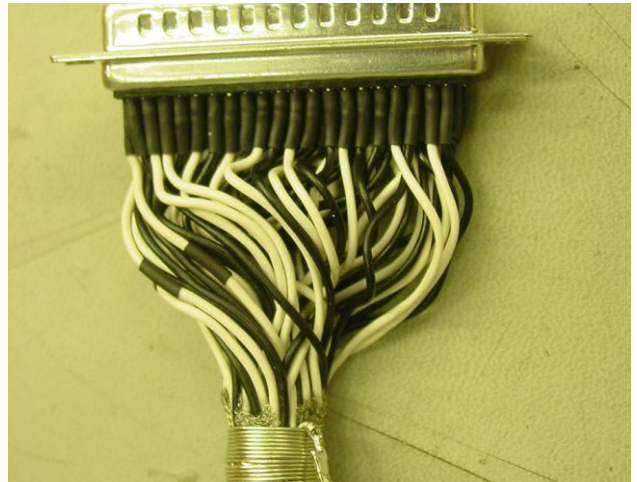

- IPC-A-620 Certified
- Advanced in-house fixturing
- Tooling for various connectors
- Microscopic soldering
- Braiding
- Testing
- Sub-miniature connector assembly
- Heatshrink
- Potting – Vacuum degassing and temperature controlled
- Marking and Packaging

### Certifications and Software

- AS9100 Rev D / ISO9001 Registered
- ITAR Registered
- E2 Shop Systems - Fully Integrated Enterprise Resource Planning (ERP) System
